

CUT-OFF MACHINE BRILLANT 255

The universal wet abrasive cut-off machine Brillant 255 with manual travel and fine dynamic cutting allows precise, soft touch cutting with 2 axes in arbitrary directions (Y/X axis) and can be equipped with a manual Z-axis for parallel serial cuts (option).

Side openings allow cutting continuous long parts in the spacious cutting chamber of this solid and powdercoatedaluminium construction. Complex geometric shaped samples can be fixed securely on the T-slot table using our reliable clamping systems. The vibration reducing design of the cutting arm allows a low noise cutting process.

Our approved LED cutting chamber illumination is energy saving, damage resistant and guarantees optimum illumination of the cutting chamber.

PRODUCT ADVANTAGES

- Manual vertical movement
- Manual horizontal movement, with lateral wheel wrench (optional with locking)
- Large cutting chamber
- Opening on left- and righthand side for continuous long materials
- Large table
- Sliding door
- Safety standard with door interlocking system
- Flange with ceramic protector
- Easy-Nut
- Cutting chamber illumination with LED flex light
- Large range of different clamping tools and systems available
- Solid aluminium case construction, powder coated

FEATURES

Cutting wheel	up to Ø 400 mm/16"
Max. cutting capacity	Ø 150 mm
Wheel flange size	Ø 32 mm
Y-axis manual	170 mm
X-axis manual	345 mm
Table WxD (Z-axis fixed, not adjustable)	550 x 375 mm, stainless
Table WxD (manual/automatic)	420 x 375 mm, stainless
T-slot	12 mm
Connection power (fixed speed/ variable speed)	12 kVA
Drive power (main drive)	7-8 kW S1
W x H x D	1100 x 1600 x 930 mm
Weight	~ 450 kg
