

The MetPrep Weld-Check Pro Imaging System System

A self contained system for weld examination, recording and analysis. With built in 5MP colour camera, unique optics, inbuilt LED illuminator and linked directly to the Zeiss ZEN innovative software allows the capture, recording, measurement and reporting of your weld samples.

Whether mounted or unmounted, the samples are placed on the glass stage for instant focus, auto exposure within the Zen software allows for fast focus & correct exposure in seconds. Manual adjustment of image is also possible if required. The Zeiss ZEN software also allows full measuring capability. Connection to a PC is via a USB 3 connection
